2021 DISL Playoffs

Key To Playoff Abbreviations

- The first letter corresponds to the division. The number after that corresponds to the game number matching the playoff bracket. For example, DL5 translates to D Lower division game 5.
- Inside of the parenthesis will be the team number matchup, unless that team is not defined yet. For example (6v7) would be team 6 (The Takeover) versus team 7 (Yankees).
- If inside the parenthesis there is a different code, it will correspond to the winner or loser of another matchup in the division. The first letter will be a W or L (winner or loser) and the next will be the game code. For example, (WC8vLC7) means that the winner of matchup C8 versus loser of matchup C7.

Note, as the games get played it is our intention to decode the matchups as they become available. This schedule and brackets will be updated nightly.
